

Post-Doctoral Researcher

Department of Biomedical Sciences

Colorado State University

Fort Collins, Colorado

The Tsunoda laboratory in the Department of Biomedical Sciences in the College of Veterinary Medicine and Biomedical Sciences at Colorado State University is seeking a post-doctoral researcher for studies in the areas of cell signaling, ion channel trafficking and regulation in neurons, phototransduction, and/or photoreceptor cell biology. This laboratory uses molecular/biochemical/cellular techniques combined with electrophysiology and *Drosophila* genetics to study the organization, regulation, and trafficking of signaling proteins and ion channels.

To apply, please send electronically a resume, cover letter detailing research qualifications/experience and names of three references to Dr. Susan Tsunoda at: Susan.Tsunoda@colostate.edu Additional information about this position can be found on the following website: <http://www.cvmbs.colostate.edu/bms/>

Review of applications will begin November 6, 2009 but may continue until position is filled.

Colorado State University is an equal opportunity/affirmative action employer and complies with all Federal and Colorado State laws, regulations, and executive orders regarding affirmative action requirements in all programs. The Office of Equal Opportunity and Diversity is located in 101 Student Services. In order to assist Colorado State University in meeting its affirmative action responsibilities, ethnic minorities, women and other protected class members are encouraged to apply and to so identify themselves.

Colorado State University is committed to providing a safe and productive learning and living community. To achieve that goal, we conduct background investigations for all final candidates being considered for employment. Background checks may include, but are not limited to, criminal history, national sex offender search and motor vehicle history.
