

EPIDEMIOLOGY FOCUS at CSU - MPH/DVM Students

*MPH/DVM students can choose to complete their MPH on any of the three campuses - they are not required to complete their MPH at CSU.

*MPH students at Colorado State University are not required to select a focus area and can choose to remain a Generalist.

*The following sample schedule may be altered to fit your needs. The number of credits in a given semester, the courses that are taken to satisfy the focus area requirements, and the number of credits to be transferred from the DVM program to the MPH program (up to 10 credits) are all flexible.

Fall 1 - MPH		Credits
