8:30	registration, coffee and poster setup			
9:15	opening statement	Nancy Sasaki	DU	
9:20	20 min talk	Sara Vetter	Centers for Disease Control and Prevention	Defining the role of <i>Y. pestis</i> biofilm in fleas
9:40	20 min talk	Darshankumar Pathak	University of Wyoming	Contact stimulation in <i>Myxococcus xanthus</i> motility
10:00	20 min talk	Yao Xiao	University of Wyoming	Role of Antibiotic TA in <i>Myxococcus xanthus</i> Predation
10:20	coffee/snacks and view posters			
11:20	10-min talk	Randall Cohrs	UCD AMC	Intrinsic Innate cellular response to VZV
11:30	10-min talk	Alex Choe	UCD	The correlation of nuclear domain 10 composition with VZV infection
11:40	10-min talk	Travis Hall / Teri Hanlon	MSCD	Mutational Analysis of Simian Varicella Virus Open Reading Frame 61 In Virually Infected Cultured Cells
12:00	10-min talk	Maria Nagel	UCD AMC	VZV Vasculopathy
12:10	10-min talk	Igor Traktinskiy	MSCD	A Human Cerebral Artery Model for studying VZV Vasculopathy
12:20	lunch			
1:30	view posters/Branch Meeting			
2:00	invited presentation	Maria Ghirardi	National Renewable Energy Laboratory	Microbes in renewable hydrogen and biofuels production
3:00	20-min talk	Emily Hill	MSCD	Stringent Control of Antimicrobial Peptide Resistance in Salmonella enterica Serovar Typhimurium
3:20	20-min talk	Jennifer Mahaffey	UCD AMC	Effect of a tyrosine substitution at position 203 of the SsrB response regulator in <i>Salmonella</i> pathogenesis
3:40	20-min talk	Jennifer Honda	UCD AMC	Immune Responses to Mycobacterium Infection in the HIV 1 Tat Transgenic Mouse
4:00	20-min talk	Heather Berens	UCD-AMC	The requirement of Bax for reovirus induced-apoptosis and growth is tissue specific
4:20	summary/awards			

event	name	affiliation	title
poster	Candace Mickler	University Colorado Denver	Varicella-zoster virus, promoter 21
poster	Carrie Eckert	National Renewable Energy Laboratory	Biohydrogen production in the unicellular cyanobacterium <i>Synechocystis</i> sp. PCC6803
poster	Genevieve Forster	Colorado State University	Rice Bran Mediated Cytokine Production in Macrophages
poster	Heidi Haro	University Colorado Denver	
poster	Holly Hamilton	Colorado State University	Microbial Ecology: Is there life in the permafrost?
co-poster	Jackie Kruger	Colorado State University	Examining RNA decay factors in mosquitoes
poster	Jessica Cannon	Colorado State University	role of the CUGBP1 RNA-binding protein in muscle cell differentiation
poster	Ji Hye Jo	National Renewable Energy Laboratory	Heterologous expression of [FeFe]-hydrogenase from <i>Clostridium thermocellum</i> for hydrogen production
co-poster	Justine Masselli	Colorado State University	Examining RNA decay factors in mosquitoes
poster	Lenden Neepur	Denver Health Medical Center	Primary investigation into the performance of the MicroPhage <i>S. aureus</i> /MSSA/MRSA test direct from blood culture
poster	Min-Hyung Ryu	University of Wyoming	Metabolic Engineering of <i>Rhodobacter sphaeroides</i> for Maximum BioHydrogen Production
poster	Moner Ragas	Colorado State University	
co-poster	Nguyen Nguyen	Colorado College	Effects of Oxidative and Nitrosative Damaging Agents on <i>Vibrio fischeri</i> .
co-poster	Nicole Laniohan	Colorado College	Effects of Oxidative and Nitrosative Damaging Agents on <i>Vibrio fischeri</i>
co-poster	Phoebe Lostroh	Colorado College	Effects of Oxidative and Nitrosative Damaging Agents on <i>Vibrio fischeri</i> .
poster	Stephanie Schittone	University of Colorado Denver	Reovirus Myelitis and Glial Activation
poster	Steve Saindon	Metropolitan State College of Denver	Prevalence of <i>Wolbachia</i> infections in Colorado mosquitoes
poster	Thuy Nguyen	UCD	Analysis of VZV infected normal human neuronal progenitor cells propagated in reduced gravity
co-poster	Whitney Holmes	Colorado College	Effects of oxidative and nitrosative damaging agents on <i>Vibrio Fischeri</i>
